Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/804,209	Applicant(s) CLOHESSY, SCOTT	
	Examiner Gary E. Elkins	Art Unit 3782	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Oath/Declaration

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:
It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56.

The recitation within the declaration acknowledging the duty to disclose information material to patentability as defined in 37 CFR 1.56(a) is not in compliance with 37 CFR 1.67(a).

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 22 is rejected under 35 U.S.C. 102(b) as being anticipated by Eyre et al. Eyre et al discloses a fiberboard container including a bottom 36, sidewalls 38a-38d connected together and attached to the bottom to form a storage area and a polymer material 18 wrapped around the outside of the sidewalls. By virtue of being wrapped, the polymer material is inherently in a stressed condition insofar as claimed.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3782

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 27 is rejected under 35 U.S.C. 103(a) as being unpatentable over Eyre et al. Eyre et al discloses all structure of the claimed container except formation of the film 18 from polyethylene. Official notice is taken that polyethylene is well known as a stretch wrap film for wrapping containers. It would have been obvious to make the film 18 in Eyre et al from polyethylene in view of the well known use of polyethylene as a stretch wrap film since polyethylene is widely available and relatively cheap. It is noted that the film 18 in Eyre et al exerts pressure on the sidewalls by being wrapped around the sidewalls, i.e. if no pressure is exerted, the film would fall off.

Allowable Subject Matter

6. Claims 1-8 and 10-14 are allowed.
7. Claims 23-26 and 28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

8. Applicant's arguments with respect to claims 22 and 27 have been considered but are moot in view of the new ground(s) of rejection.
